3D INTERNATIONAL LLC  
Technical Report: **(5106)318-0177**  
November 27, 2006  
Page 2 of 2

7- "You only need about 2 ounces to clean the average mid-size car. The first time you use the product it might take a little more than 2 ounces." **The initial application required 6 ounces. A repeat application required only 1.92 ounces.**

Refer to the Exhibit Photos as additional references.

**Note: Some of these label claims were subjective, for example, a mid-size car is not a very specific size.**
